

# Panoramic HUES

These natural palettes are nothing neutral. Derived from the pristine Colorado landscape, these bold choices bring colors from the unspoiled outdoors right into your living space.

## Simmering Paintbrush

Indian Paintbrush, the state flower of our neighbors to the north, dots mountainsides throughout Colorado. Match this hot red with two tones of warm, stone gray.

## Summer Skies

Straight from the backcountry, this color combination reflects the tall pines, blue sky and crisp, white clouds.

## The Columbine

Colorado's state bloom inspires this pretty palette. Two soft shades of purple with pale yellow is a harmonious combination.
